## PROFESSIONAL SUMMARY

Entry-level Full Stack Developer trained in the MERN stack with hands-on experience building practical web applications using React, JavaScript, Node.js, Express.js, and MongoDB. Strong foundation in REST APIs, CRUD operations, responsive UI development, Git/GitHub, and project-based learning. Focused on writing clean, reusable code and continuously improving through real-world projects.

## PROJECTS

### • Passport Size Photo Maker – React Web App

Live Github

**Tech:** React.js, JavaScript (ES6+), CSS, Image Processing, Canvas

- Built a React-based passport photo generation application that allows users to upload and prepare photos for passport-size printing.
- Implemented multi-person photo handling with support for selecting multiple users, adjusting photo quantities, removing uploaded photos, and managing individual photo inputs.
- Developed image cropping and passport-size layout functionality with A4-oriented printing dimensions, margins, spacing, and black photo borders.
- Added downloadable image output and optimized the interface with reusable React components and responsive styling.

### • Task Flow – To-do Application

Live Github

**Tech:** React.js, JavaScript (ES6+), CSS, React Hooks.

- Built a responsive task management application for creating, updating, completing, and deleting daily tasks.
- Implemented React state management and reusable components to handle task data and user interactions efficiently.
- Added task status handling and interactive controls to provide a simple and intuitive workflow for managing tasks.
- Designed a clean responsive interface with structured CSS and component-based development for better maintainability.

## TECHNICAL SKILLS

### • Frontend:

JavaScript (ES6+), OOPS, React.js, Tailwind CSS, Responsive Design, Component-based Architecture, Redux Toolkit, Firebase, React Native, Expo, Native wind, Clerk

### • Backend & Databases:

Node.js, Express.js, MongoDB, REST APIs, JSON, JWT Authentication, Multer, Cloudinary, Controller-based structure, Mongoose, Aggregation Pipeline, Relationships in MongoDB,

### • Tools & Platforms:

Git, GitHub, Figma, VS Code, Postman, Netlify, Vercel, Chrome DevTools, Expo Go.

## EDUCATION

Full Stack Development Program – Dice Academy, Delhi

Nov 2025 – Present
